Next Generation Stripping

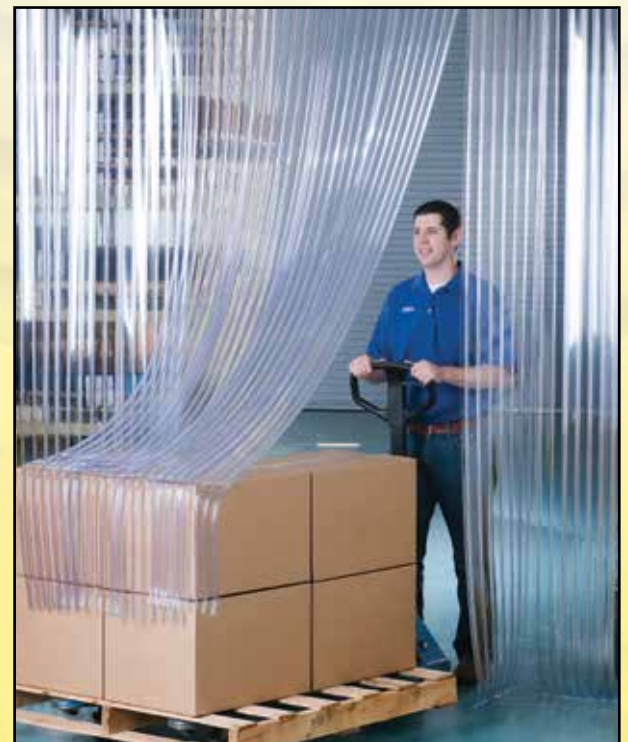

New!

Visi-GUARD

Improved!

SCRATCH-GUARD

Aleco® redefines the strip door

Visi-Guard by Aleco® is simply the most revolutionary strip door material design in years. Engineered for scratch resistance, this alternative to smooth stripping delivers true Aleco® quality, performance and durability.

Advantages:

- Offers better scratch resistance
- Improve energy efficiency
- Minimal cling between strips for easy passage
- Ideal for indoor applications
- Quick and easy installation when used with MaxBullet® hardware
- Maintains visibility longer
- Longer durability; higher ROI
- Standard and low temp formulations
- 8" and 12" widths

Visi-Guard
Profile

- Raised areas are the same thickness as smooth material, creating the same performance characteristics
- Recessed areas reduce contact with equipment and personnel, minimizing scratches and prolonging visibility

Continually improving the best products on the market

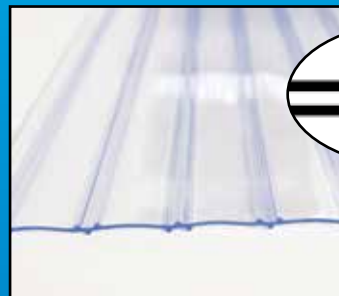

The R&D team at ES ROBBINS, Aleco's parent company, is constantly looking for ways to make our existing products even better. With the new Aleco® Scratch-Guard® strip door design, we've set a new standard in product performance, with three very significant changes:

- Outer ribs are optimally placed closer to the edges to prevent wrinkling and rippling
- Unique rib design forms a "V" shape, creating an interlocking seal between strips
- Additional spacing between ribs maximizes visibility

Advantages:

- Improved Scratch-Guard® strip door design offers superior scratch-resistance
- Less material at the outer edges prevents wrinkling and rippling
- Wider area between ribs promotes greater visibility
- New interlocking rib design prevents "telescoping" of material during shipment
- Ideal choice for motorized traffic
- Energy efficient
- MaxBullet® hardware system makes installation quick and easy
- Standard and low temp formulations
- 8" and 12" widths

Profile of
"nested" strips

- Durable and tough
- New "V" design interlocks ribs for tighter seal between strip layers
- Less wear; lasts longer
