## INDUSTRIAL AND FOOD SERVICE STRIP DOORS

Strip doors are one of the most cost-effective ways to create a passable barrier from external contaminants while providing comfortable working conditions for employees.

- Strip doors reduce energy costs
- Prevent contamination
- Improve environmental control
- Promote better work flows
- Increase employee safety

### BULK AND REPLACEMENT ROLLS

### SEE OUR FULL LINE OF STRIP DOOR PRODUCTS AT ALECO.COM

❶ Scratch-Guard® ribbed stripping resists scratching and lasts longer

❷ Maintains visibility

❸ Durable & tough

❹ Easy access

❺ Bright orange strips for increased safety

# MAXBULLET® MOUNTING SYSTEMS

- Fast, safe and easy installation.
- Features one piece bullet-shaped locking system for easy snap on/off installation that requires no tools and increases saftey during installation.
- Simple and cost-effective to use. Strips may be replaced more often, increasing visibility for safer forklift traffic.
- Acquire our **MaxMagic Template Kit** to easily drill and count strips.

## FOR THE FASTEST INSTALLATION

Save significant labor costs by reducing installation time by as much as 75%.

**PREMIUM MATERIAL FOR DURABILITY AND LONGEVITY**
Aluminum, Stainless Steel or HTP Polymer

**BULLET SHAPE LOCK FEATURE**
Ergonomically designed for easy snap on/snap off installation

---

## MAXBULLET ALUMINUM

Aluminum hardware will not rust or corrode. Ideal for heavy duty applications.

### MEASUREMENTS AVAILABLE

| | |
|---|---|
| 2' 0" *(600 mm)* | 6' 0" *(1800 mm)* |
| 3' 0" *(900 mm)* | 7' 0" *(2100 mm)* |
| 4' 0" *(1200 mm)* | 8' 0" *(2400 mm)* |
| 5' 0" *(1500 mm)* | |

---

## MAXBULLET STAINLESS STEEL

Stainless steel hardware for food processing applications (where washdown is required).

| | |
|---|---|
| 1' 0" *(300 mm)* | 3' 0" *(900 mm)* |
| 2' 0" *(600 mm)* | 4' 0" *(1200 mm)* |

---

## MAXBULLET ALUMINUM FS

Aluminum hardware will not rust or corrode. Ideal for freezer or cooler doors.

40" *(1016 mm)*

---

## MAXBULLET HTP

Exclusive cross-linked polymer technology creates a durable option and cost-effective to use, whether for food service or industrial applications.

2' 0" *(600 mm)*

## IMPACT TRAFFIC DOORS

Impact traffic doors are a cost-effective solution for fast and efficient two-way movement through an opening where noise, visual elements and environmental barriers need to be contained.

Aleco traffic doors are customer crafted to exacting specifications from a portfolio of transparent, flexible and rigid door designs.

## MATTING & RUNNERS

### PRO-LITE® 4-WAY DRAIN MAT

A durable lightweight drain mat with exceptional 4-way drainage and fatigue relief. Pro-Lite has waffle underside that grips the flooring surface.  Appropriate for wet or dry areas. Black Pro-Lite mat is grease resistant with a limited 2-year warranty, while Terracotta drain mat is grease and oil proof with a limited 3-year warranty.

### FEEL GOOD® MAT AND RUNNER

Ergonomically designed dome surface of the Feel Good Mat provides fatigue relief and a non-slip surface. The 24"x 36" mat features rounded corners while the longer length runner has tapered edges and rounded corners to help eliminate trip hazard. Recommended for dry areas only. Feel Good products are Grease proof with a 2-Year Limited Warranty.

### COMFORT WELD®

The Comfort Weld mat is ergonomically designed for fatigue relief and it's formatted vinyl repels sparks and slag. Beveled edges help eliminate trip hazards while foam underside grips floor in order to prevent movement. Recommended for dry areas only and has a 2-Year Warranty.
